Stanislav Aydynyan (vice-president for public relations of the Creative union of professional artists, member of the board of the International association of assistance to culture, member of advisory council of Association of portrait painters, member of the Union of the Russian writers):

«Victoria PreobRazhenskaya reveals secrets of the Earth and secrets of the Cosmos to the viewer. ...Her soul lives with the sensation of ancient primordial sounds of the Earth and its «surroundings». Victoria reminds us again that the world is beautiful, that the world must go to the Light. And we saw this Path to the Light both at the exhibition of Victoria PreobRazhenskaya in her vernissage, and in her theatrical performance».

Zhanna Mozgovaya (art critic, executive secretary of the magazine «Petersburg-classic»):

«...Painting — it is only a part of the Universe «tracery» of Victoria PreobRazhenskaya. Victoria's creation is extremely syncretic. In it, the fine art is inextricably linked with music, dance, poetry. You can not just admire the paintings of Victoria or listen to her music composition. The most attentive and thoughtful look; the most profound, meditative immersion in the sound does not help to know completely the Revelation that opens to the author. This is only possible in the synthesis of all created by Victoria. Then come to life colors and sounds filled with meaning. Sounds organize a space, a move that acquire special rhythms and dance arises...».

Alexander Osipov (professor, president of the Association of painters-portraitists):

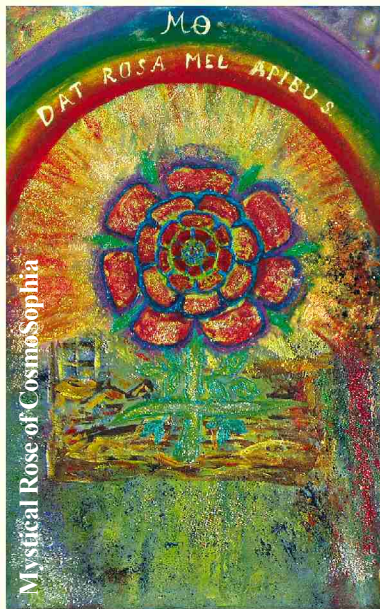

«...It was fulfilled the prophecy that had been expressed at the beginning of the last century, that the third millennium will be marked by a completely new kind of art — Polyart, which synthesizes many kinds of art in one. We are witnesses and close friends of the person — Victoria PreobRazhenskaya, who embodies all these talents...».

Aleksandr Ivanovich Khersonov (chemist, cosmobiologist, poet, journalist, member of the union of journalists, bachelor of an astrology):

«Victoria, You do a great work. Above this work — there is nothing! You wake up spirituality of the Russian Land. The future is yours!».

The Prediction of Heavens

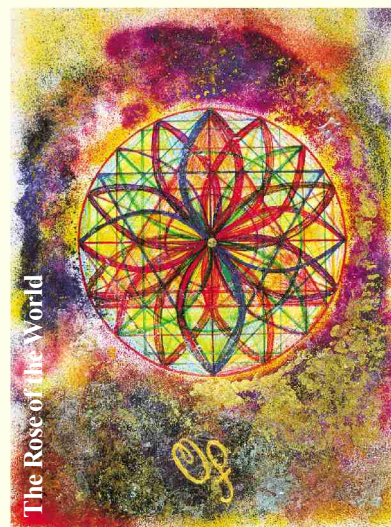

S.V. Golubev (chairman of the commission of scientific tourism of Russian Geographical Society):
«...It is amazingly fine pictures, tremendous music and the artist herself. She — is an outstanding personality. Such people should be appreciated, they are few. This is — a Light of the modern world! In general, I am delighted with everything I saw».

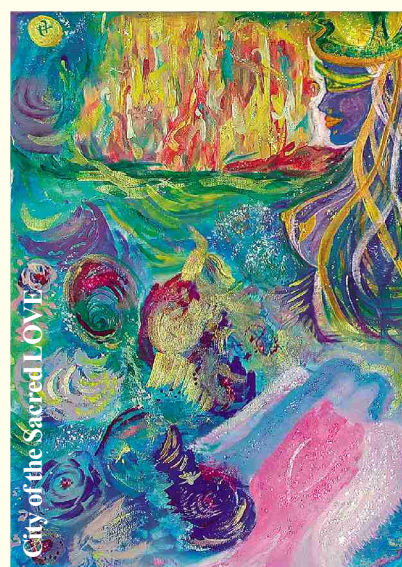

Izolentia (the Eighth Universe for 200 centuries, or 20 thousand years)

The Land of Man-made Mountains

The Rose of the World

P.V. Tulaev (writer, scientist, founder of the publishing international magazine «ATENEY»):

*«The advent of a new Cosmic Era of Aquarius, the Era of the awakening of the Light Forces, the revival of Feminine Spirituality and Universal Harmony is marked by the appearance in Russia of its first Messengers, who know the secrets of the Forthcoming. They — are like celestial bodies in the darkness of Kali-yuga. The name of one of these guiding stars is — Victoria PreobRAzhenskaya. ...Being gifted from Above, she — is a poet, artist, musician, composer, theosophist-esotericist and writer in one person, and her brilliant works combine the attributes of different arts. Experts reckon Victoria is the owner of a multifaceted talent and the founder of «Cosmic Polyart of the Third Millennium». And I would call her — **the Avatar of the Sixth Race**, for she carries the treasures of the new Golden Age».*

Elena Anatolievna Malkova:

«I'm surprised very much the «Cosmic Polyart of the Third Millennium of Victoria PreobRAzhenskaya».

This such unusual art different from other arts by that it looks in future bases, in bases of contemplation of the world, in bases of beauty and mysteriousness. It opens for us that we very long time ago lost for centuries. In this picture («the Marvellous Island») I see Soul of Victoria Preobrazhenskaya, soul of the Earth, soul of Creation, Great Creation».

A.I. Asov (writer):

«This is not the first time I have witnessed a magical action — mysteries of Victoria PreobRAzhenskaya... The feeling of an another-world is always present at mysteries. We see images of gods, these images come to life, revive, and we begin our way to the Country of Lightbringer RA, to the Country of our soul, Russian soul. And this main thing, that we see in «Cosmic Polyart of the Third Millennium of Victoria PreobRAzhenskaya».

*The Theatre of Mysteries of Victoria PreobRAzhenskaya
(St. Petersburg, 2008).*

G.N. Ginsburg (art critic, academician of the EANS):

«The tone You set, Victoria, — is perfect openness. We are used to defending ourselves, someone attacks us, and suddenly we found ourselves in such World of Love, World of very bright feeling. Great costumes, great production. I saw this performance together with You for the first time, it is sustained in the genre of mysteries. And here the action took place. It was voluminous, airy and, indeed, heartfelt».

Olga Chernysheva (poetess, a member of Union writers of Russia):

«Victoria PreobRAzhenskaya — so unusual phenomenon in our life that I want to talk and talk about her that new people will join to her many admirers, those who want to penetrate the mystery of existence, discover unknown earlier sense of inner light and beauty of soul — «Formulas of Light»».
